As discussed with regard to Dorset Green in Moredon. There has recently been travellers that have decided to park their vehicles and caravans in nearby Pembroke Gardens in Moredon.

There is nothing to stop them doing the same thing on Dorset Green in Moredon by accessing it from Bolingbroke Road. When I first lived here there were barriers preventing this but these were removed after one fell down and were not replaced. Please can I request that the council urgently replace these barriers to prevent vehicles from entering the Green.

Regards
Phil Cheese

Looks great with a fence.

We can look at measures to protect the space, whether than be large stones or logs (rather than a fence).

Would be one for E&P to consider and possibly for the Ward Members to consider using their allowance for.

In 2015

You can actually see tyre tracks on the above photo where someone has driven across the Green.
