

Charity Partnership

As a parish council I would like to see us work in partnership with a local charity. I recently had a meeting with the chair of community and development (James Yeowell) about how we can look to do run this and the criteria it needs to meet for it to work. Which are listed below

The charity will be chosen based on its alliance with the council's commitment to supporting the community and improving local wellbeing within the parish. The selected charity will focus its operations within the parish boundaries, ensuring that the benefits of this partnership directly towards the local area. This collaboration will involve joint efforts to raise awareness and funds for the charity, with a particular focus on organising fundraising events that encourage participation from the entire community.

Throughout the year, the Parish Council will work closely with the chosen charity, incorporating fundraising efforts into any council-led events and initiatives. The council is dedicated to using its platform to not only raise financial support but also to increase visibility for the charity's cause, ensuring it gains the attention and backing it deserves from the local community.

Regarding the selection of a local charity, I suggest we announce on social media that we're seeking a charity to partner with. After narrowing down the options, we could invite the shortlisted charities to present to the councillors and parish officers.

I would like to launch this for Feb 2025- Feb 2026
