

Community Centre manager's report

Pinetrees Community Centre

Over the summer it does get a bit quieter with some clubs not running, but busier with one off celebrations in the hall.

After the success of the Children's Easter trail, Kelly Foundation and us we decided to do a summer butterflies and bug's trail. Over 50 children attended, they did the trail and got a free ice cream. There were also arts and crafts, face painting and cake decorating going on in the hall.

With two successes we are now planning on doing a Halloween trail.

The hall floor has been replaced, and the building has been redecorated. The community Centre is now looking fresher, and the hall looks bigger with the lighter coloured floor.

John Moulton Hall

Just like Pinetrees it has been quieter booking wise because it's the summer holidays.

It has been great to see the community using it for Pride in Place discussions.

The old heating system has been replaced. The gas for the cooker will be removed, and a new electric cooker will be installed soon.

Moredon Community Centre

With work due to start soon booking wise will be going quiet. I am currently finding places for the current evening groups to go to whilst the works are happening.

Lunch club has gone quiet due to the restaurant in the home next to Moredon Community Centre having a new restaurant open. There are plans of a leaflet drop after the works are done.
